PLASMA IN™

UV curable ink for industrial printheads

The PLASMA IN™ UV curable ink series are designed for high productivity industrial UV printers installed with Konica Minolta, Ricoh, Dimatix Spectra and Toshiba-Tec print heads.

PLASMA IN™ curable UV ink series guarantees high speed printing while delivering high quality colors and performance.

The PLASMA IN inks are formulated for a wide range of substrates including rigid, flexible or elastic for indoor and outdoor applications. The flexible substrates the inks are designed for include vinyl, styrene, polycarbonate, acrylic, PP, foam boards and more.

The PLASMA IN demonstrates great outdoor durability.

Main advantages

- Excellent adhesion on a wide range of flexible and semi flexible applications and media
- Perfect jetability and instant curing properties
- VOC and odor free
- Wide color gamut

Konica Minolta™: 512/1024/1024i

Dimatix Spectra™: Galaxy series, Nova series, S series

Ricoh™: Gen 3, Gen 4

Toshiba™: Tec CE3& CE4
