Oil-Based inks

Top Quality That Works Smoothly

CLEAR™ Oil-Based inks

Top Quality That Works Smoothly

Bordeaux CLEAR ink is designed for wide format printers using oil-based inks. These inks' greatest advantage is the very high printing speed achieved by immediate absorption on the media with virtually no drying time. The low evaporation property prolongs the life of your printheads since there is no drying of inks on the nozzles.

Bordeaux offers the best formulation for oil-based ink. Carefully selected superior quality pigments from European manufacturers provide the widest color gamut and increase the lifespan of the prints.

The ink is extremely water-resistant and perfectly suited to wide weather conditions range.

OIL-BASED DYE SUBLIMATION

Bordeaux offers also SUBLIMATION ink based on oil. The CLEAR dye SUBLIMATION is based on the traditional CLEAR ink formulation. Bordeaux's unique development of oil-based dye SUBLIMATION inks expands

the possibilities of your oil based printers by printing directly on textile or on transfer paper while leveraging the advantages of the CLEAR ink. The CLEAR SUBLIMATION ink is compatible with a large variety of media with 4-color process.

Unique Benefits

- Instant drying properties for high productivity modes
- Maximum light fastness
- Non volatile ingredients - based on mineral oils
- Maximizes printhead's lifespan
- Outdoor durability guaranteed for up to 1 year
- Compatible with all absorbent substrates and paper
- Environmentally friendly - low toxic
- Not regulated for transport - non hazardous
